John Deere: Good Morning, Farm!

A Note to Parents and Teachers

DK READERS is a compelling reading programme for children. The programme is designed in conjunction with leading literacy experts, including Cliff Moon M.Ed., who has spent many years as a teacher and teacher educator specializing in reading. Cliff Moon has written more than 160 books for children and teachers. He is series editor to Collins Big Cat.

Beautiful illustrations and superb full-colour photographs combine with engaging, easy-to-read stories to offer a fresh approach to each subject in the series. Each DK READER is guaranteed to capture a child's interest while developing his or her reading skills, general knowledge, and love of reading.

The five levels of DK READERS are aimed at different reading abilities, enabling you to choose the books that are exactly right for your child:

Pre-level 1: Learning to read
Level 1: Beginning to read
Level 2: Beginning to read alone
Level 3: Reading alone
Level 4: Proficient readers

The "normal" age at which a child begins to read can be anywhere from three to eight years old. Adult participation through the lower levels is very helpful for providing encouragement, discussing storylines and sounding out unfamiliar words.

No matter which level you select, you can be sure that you are helping your child learn to read, then read to learn!

Monkeys

DK

A Dorling Kindersley Book

Smile, please!
Come and meet
the monkeys
of the world.

A pygmy marmoset can fit in your hand. It's the smallest monkey.

marmosets

claw

tail

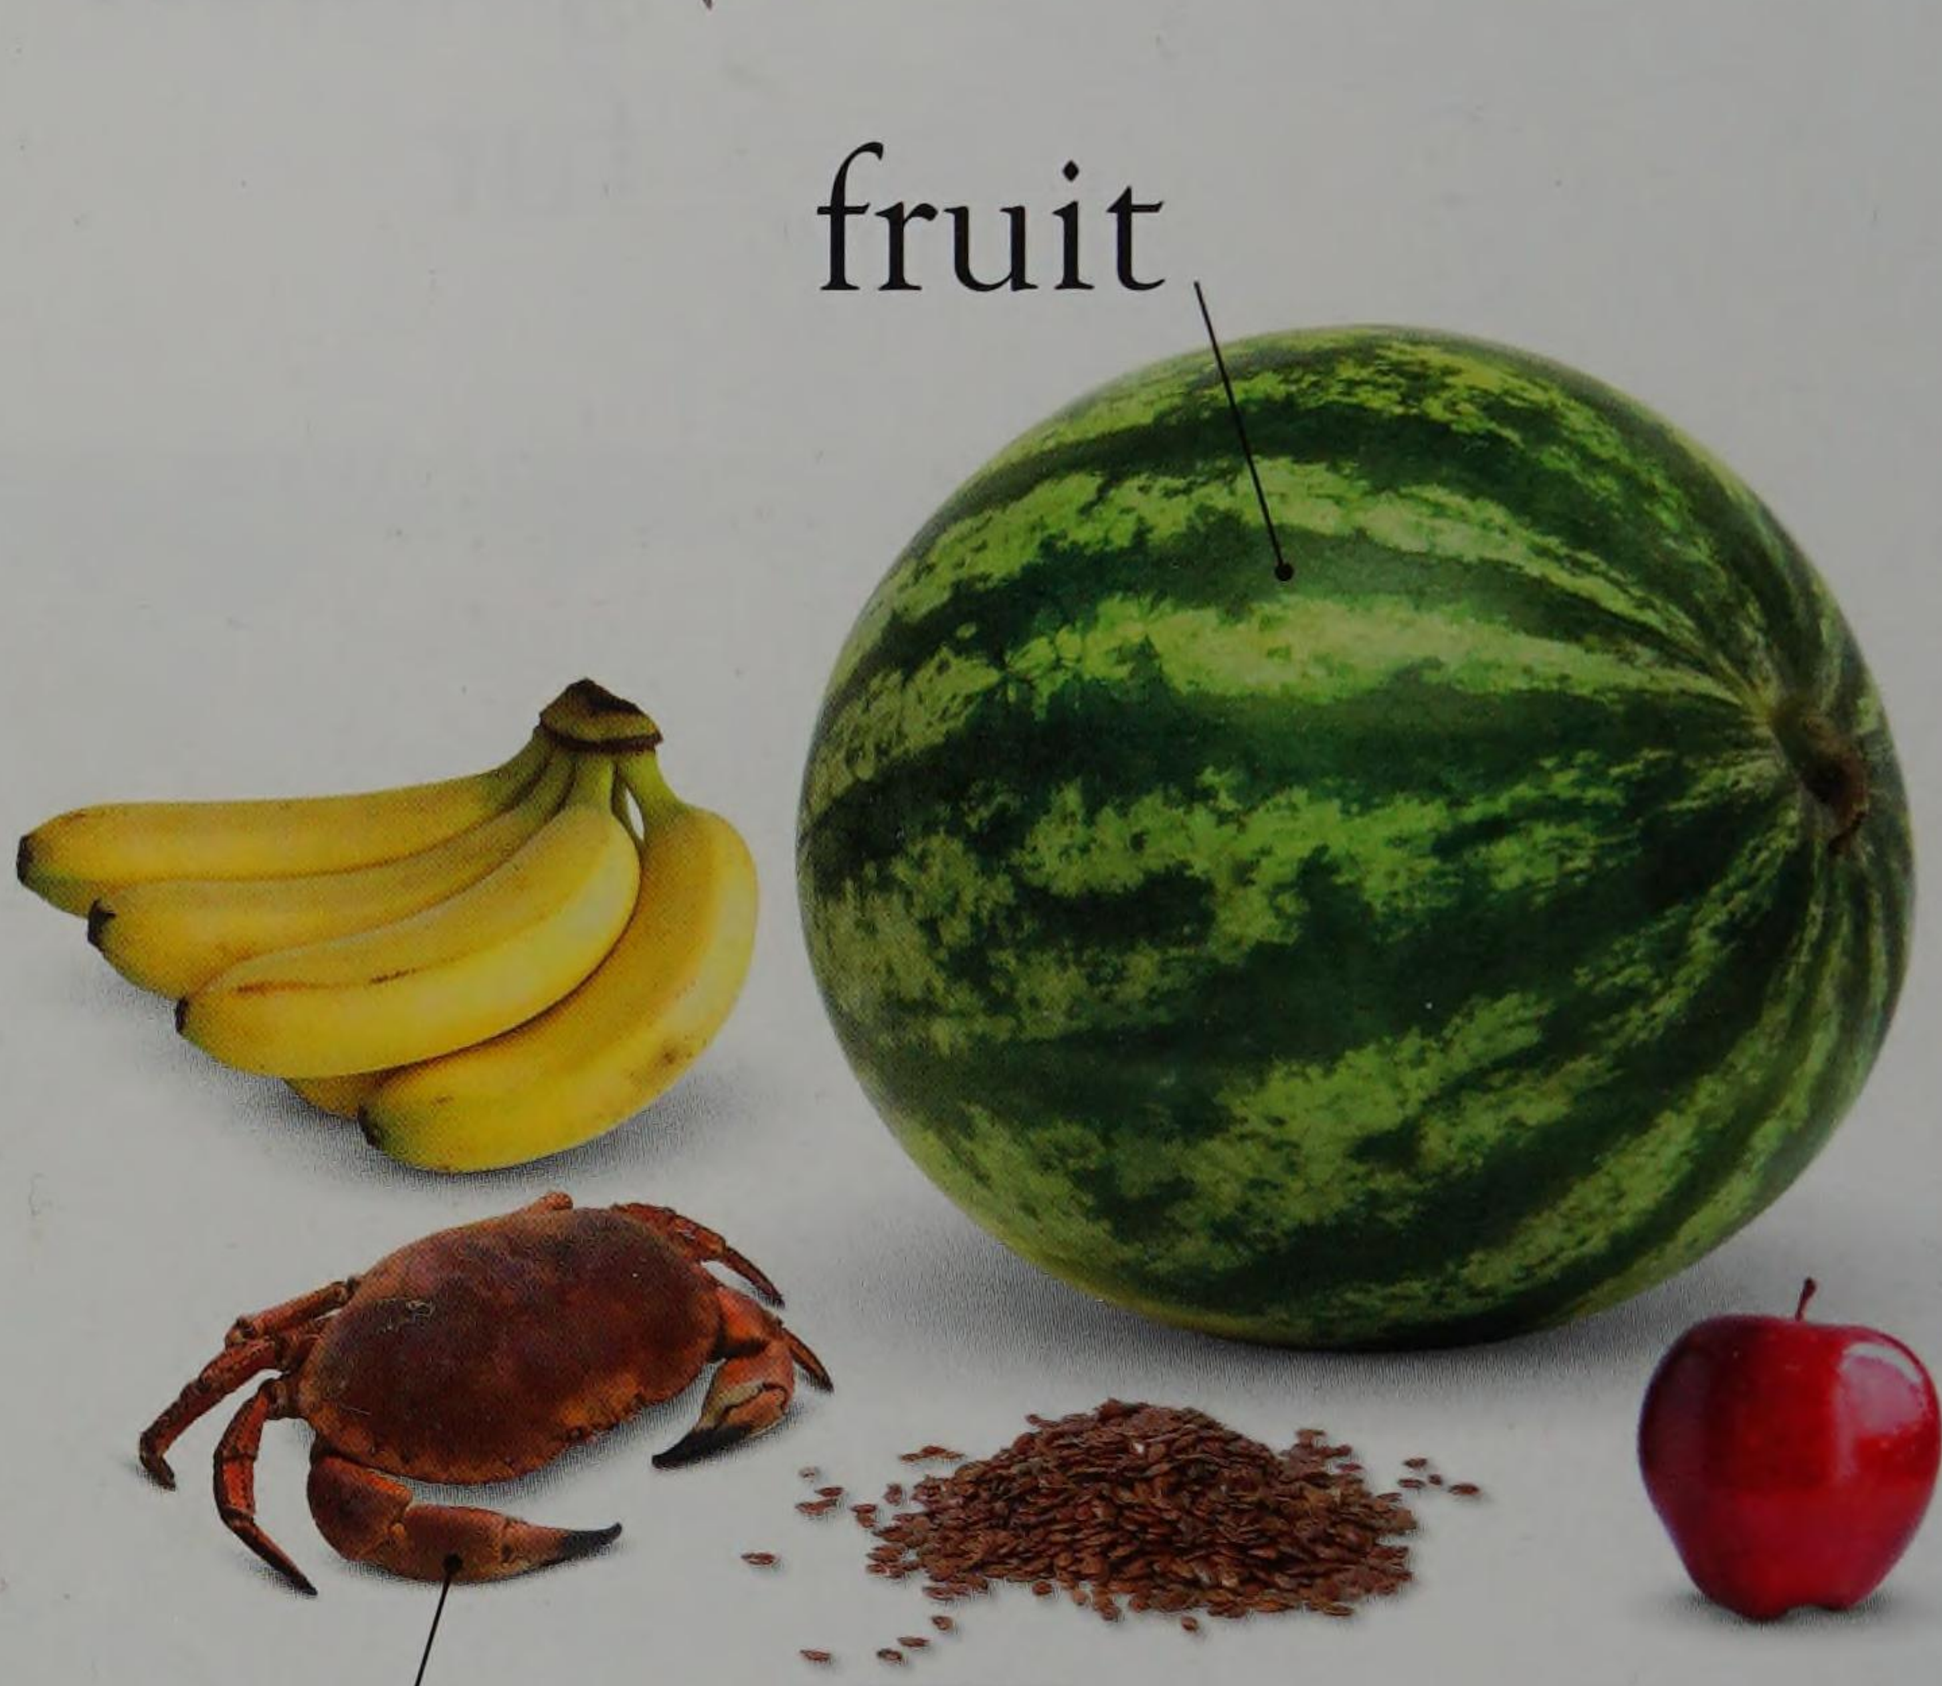
Golden lion tamarins climb up tree trunks and run along branches.

tamarins

golden
fur

branch

Capuchin monkeys eat fruit, insects, crabs and eggs.



capuchins

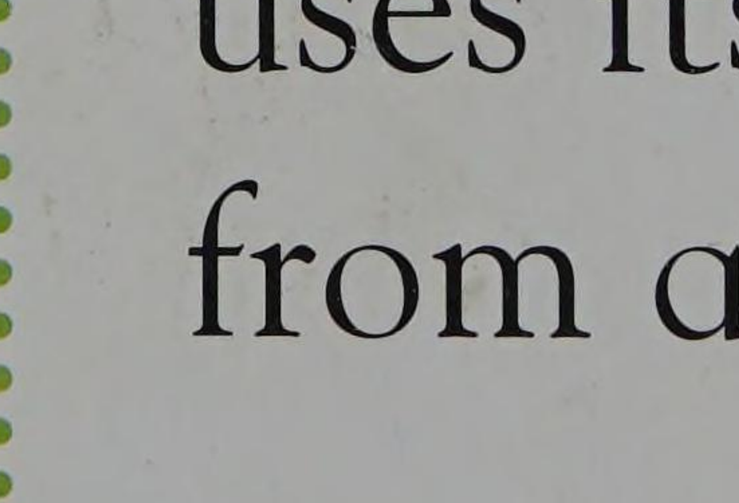
A squirrel monkey
jumps from tree to tree.
Its baby hangs on tight.

squirrel monkeys

baby

hand

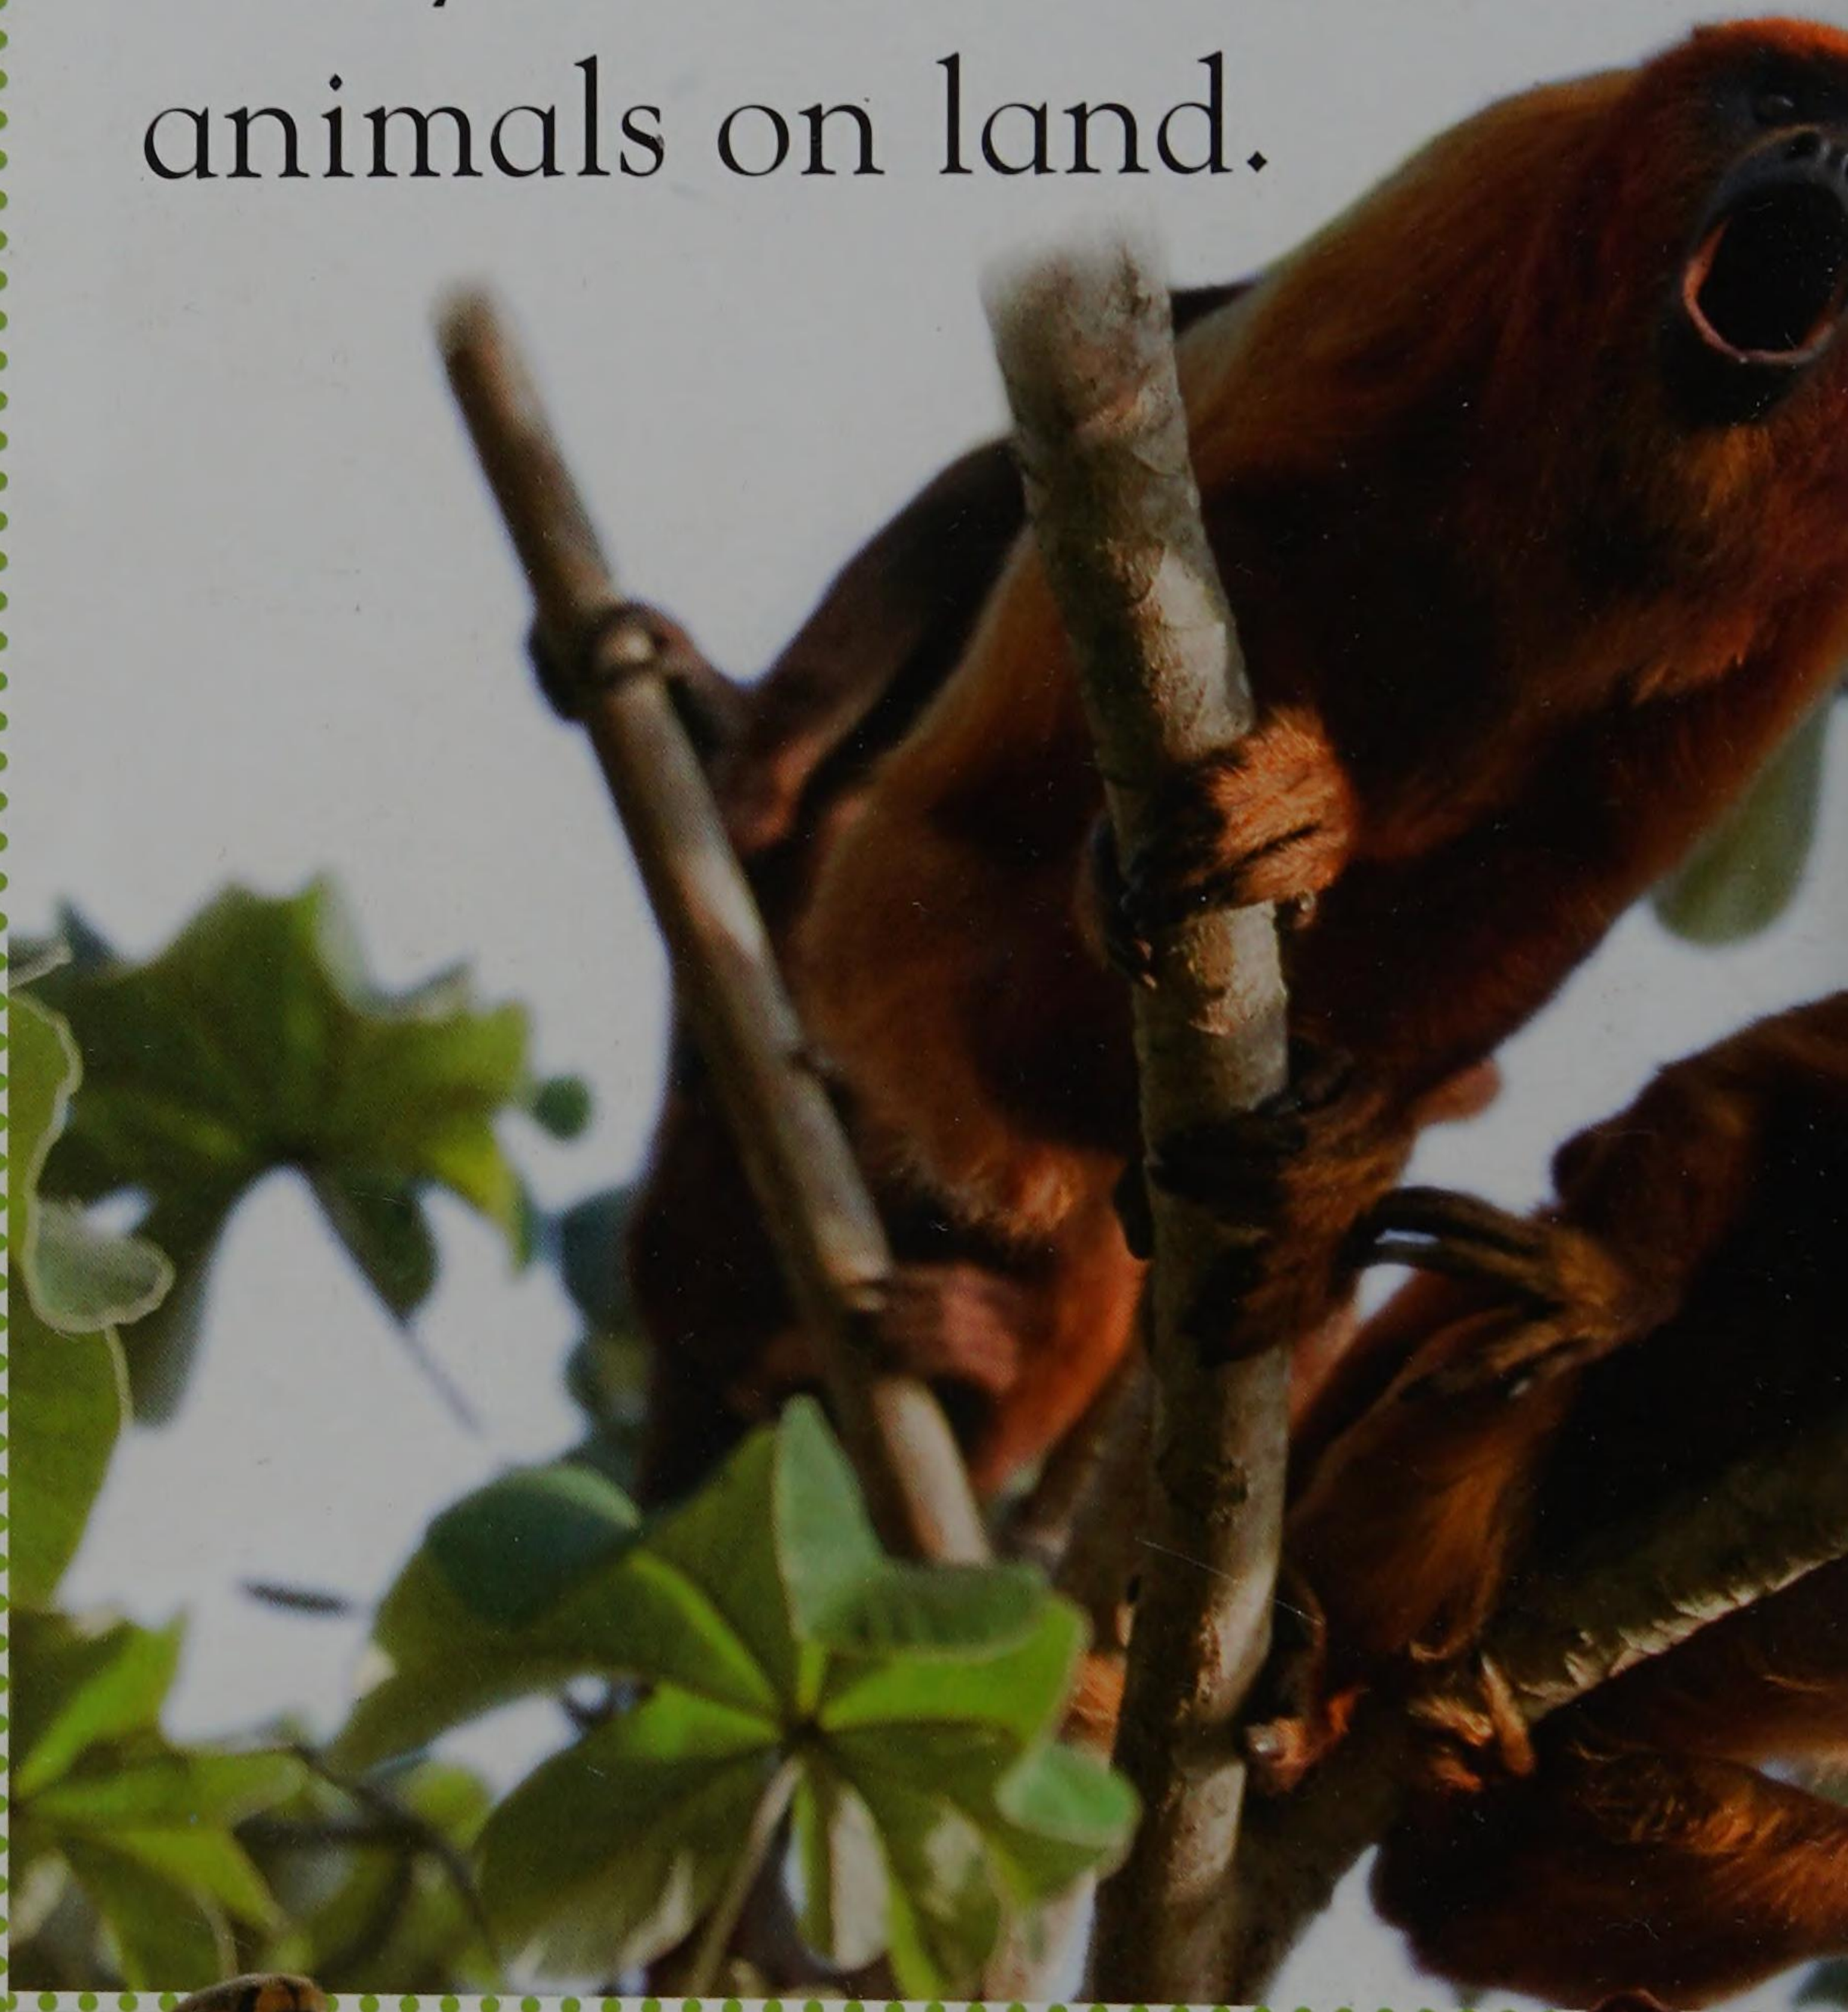
A spider monkey uses its tail to hang from a tree.



spider monkeys

tail

Howler monkeys
call to each other.
They are the loudest
animals on land.



howlers

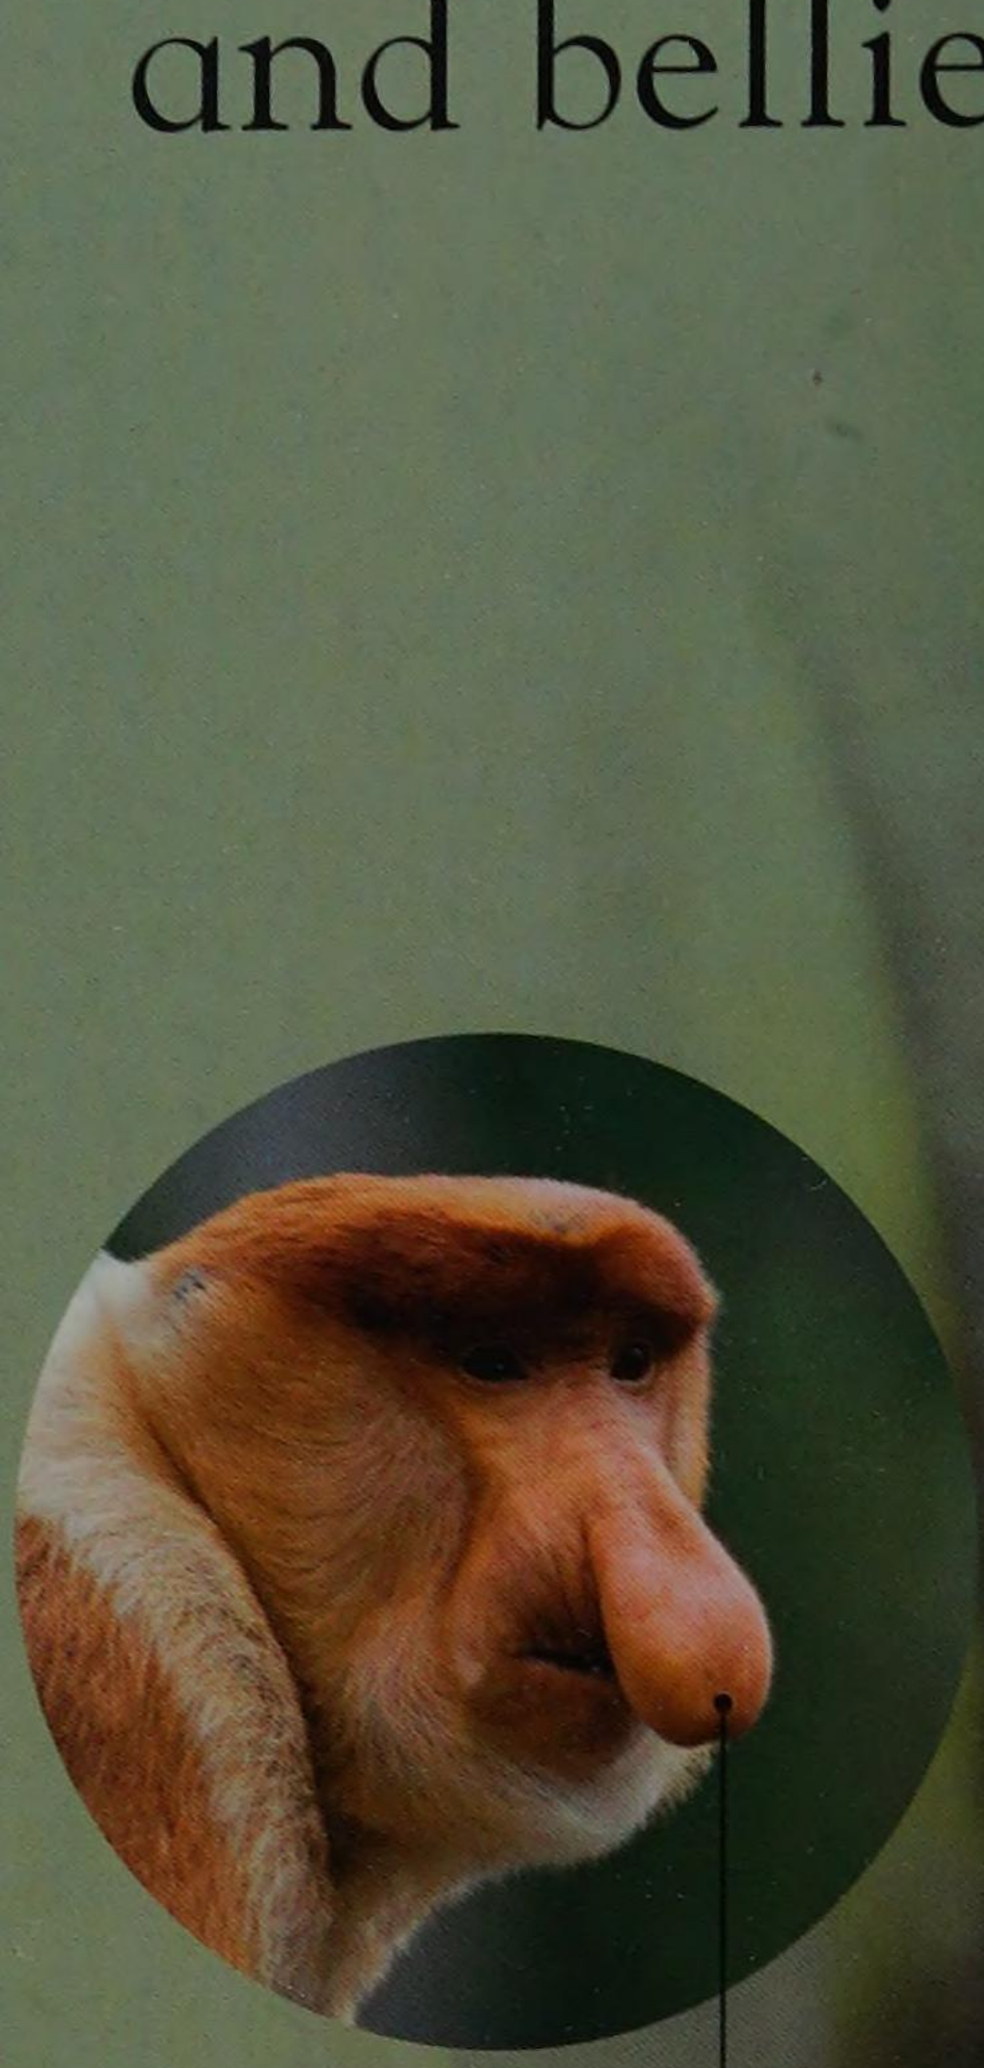
ear

mouth

night monkeys

Night monkeys have large brown eyes to see in the dark.

Proboscis monkeys
have big noses
and bellies.



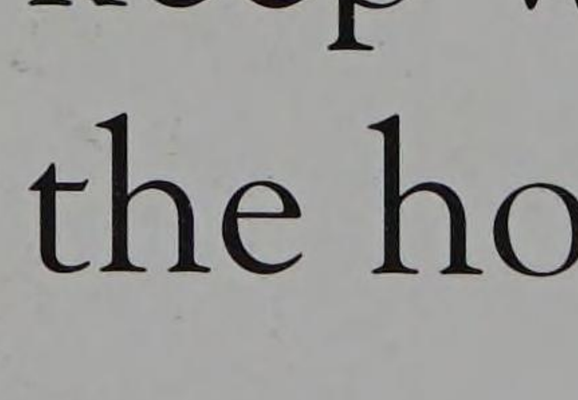
nose

proboscis monkeys

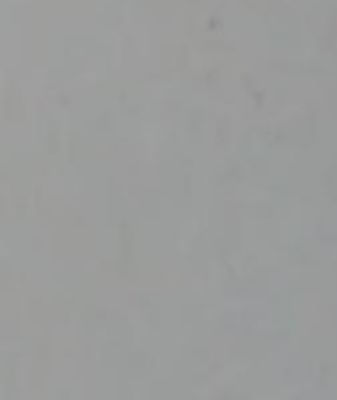
belly

snow

Japanese macaques keep warm in the hot springs.



macaques



hot spring

A large mandrill shows its teeth to make friends or scare enemies.

mandrills

teeth

feet

vervet monkeys

Vervet monkeys
help each other
to keep clean.

fur

Troops of baboons travel and live together.

baboons

Which monkeys

The monkeys rest
after being so busy.
Shh!

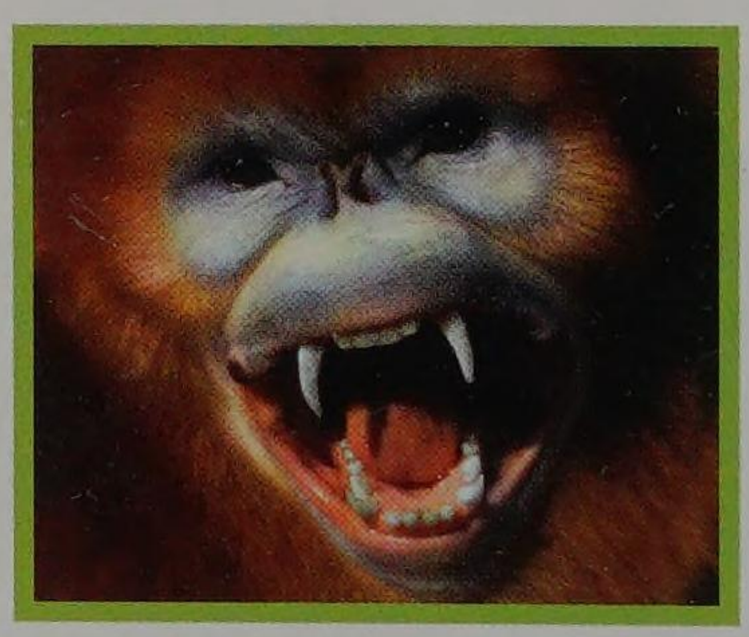
did you like best?

Glossary

Claw
a sharp nail on the end of an animal's hands or toes

Fur
a thick coat of soft hair that covers an animal's skin

Tail
a long, movable body part joined to an animal's bottom



Teeth
used for biting and chewing food

Troop
a group of monkeys, also called a tribe
